**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. §§ 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR § 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-30 and 34-42, drawn to a method of transforming a plant with a transgene encoding a resveratrol synthase, transgenic plants produced by said method and various methods of using said transgenic plants.

Group II, claim(s) 31-33, drawn to a method of producing isolated resveratrol glucoside comprising transforming a plant cell with a transgene encoding a resveratrol synthase and isolating resveratrol glucoside from said transformed plant cell.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The single general inventive concept that links Group I and Group II is resveratrol glucoside, which Applicant admits on page 2 of the specification was known in the art at the time of Applicant's invention. In addition, the method of Group II is directed to a product-by-process, wherein the product of the process can be made using a materially different process such as chemical synthesis. Hence, Group I and Group II lack the same corresponding special technical feature as required under PCT Rule 13.2.

3. Applicant is advised that the reply to this requirement to be complete within one month (not less than 30 days) must include an election of the invention to be examined even though the requirement be traversed (37 CFR § 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one

claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR § 1.48(b) and by the fee required under 37 CFR § 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H. Kruse, Ph.D. whose telephone number is (703) 306-4539. The examiner can normally be reached on Monday to Friday from 8:00 a.m. to 4:30 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dr. Amy Nelson can be reached at (703) 306-3218. The fax telephone number for this Group is (703) 872-9306 Before Final or (703) 872-9307 After Final.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to Kim Davis whose telephone number is (703) 305-3015.
